

Ahoy there! Welcome to the Caribbean!

The Caribbean Islands are full of adventure, hope, and challenges. Beach parties and festivals are ways to relax. Hunting for pirate treasure on adventures is fun. On these journeys we might find buried gold or cannibals, or even be shipwrecked. Do you think you're ready for an adventure?

Life on the islands included loads of celebrations of thanks for what nature provided. The main food was from the sea and fishing was a favoured past time

Voyages of Discovery meant people went searching for fortune on the high seas!

Tribes lived on the islands, many with different cultures. Some were hostile, but most were friendly.

Life onboard ship wasn't easy. It was hard to keep food from rotting. Not to mention handling rough seas, keeping an eye out for other ships, or sailing in shallow waters.

Pirates landed sometimes to make hideouts and to bury their treasure. Sometimes a pirate or sailor was shipwrecked on an island alone!

Caribbean

The Six gives suggestions of what you could do...

Voyages and Discovery - We should go on a day-out to discover a new place!

Treasure Island - Money has a strange effect on some people. Why is that?

Desert Island Survival – Can we learn about how to survive on our own? What challenges would we face?

Nature - What is this "Leave No Trace" programme?

Jamaican Celebrations - Can we have a Beach Party and showcase our talents?

Island Peoples - The Caribbean is full of different cultures. How many different cultures are in our town? Can we do a survey in our Neighbourhood?

Preservation - We could make a memory box of all the things we have collected on our Cub Scout Journey.

Weather Forecasting - Weather affects how I feel. We could keep a diary of the weather and how we feel. Or we could make a rain gauge!

Telescopes - Weren't they used to keep watch? How can we watch out for each other? On our next hike, we could use the Buddy System!

Fishing - We should all go on a fishing trip!

Sea Language - Pirates used their own slang. Can we invent our own language too?

Hammocks and Hideouts - Some times it's good to spend time on our own. I like to read in my spare time. I will make sure that I make time to read on our next activity.

What Eva did in this land...

Activity	Turas	Taisteal	Tagann
Treasure Island	Made a map of my area	Made a palm tree using pioneering poles	Made a time capsule
Preservation	Went on a history hike	My Six made jam	Made a poster to save water. Tap tips!
Desert Island	Built a shelter on the beach 	Made a signal fire 	Lit a fire by friction method 
Weather Forecasting	Kept a weather diary to see its effects on me 	Studied the clouds and the weather they made 	Made a wind vane for camp 
Voyages of Discovery	Looked for a new place to visit	Went on a mystery tour set by the Scouts	Found out about Tom Crean
Telescopes	Used the buddy system on a Hike	Made a kaleidoscope	Visited a large telescope
Nature	Learned the seven principles of LNT 	Went on a LNT nature walk 	Did a campaign about LNT awareness 
Fishing	Made a fishing rod from bamboo	Tried spear fishing with her six 	Cooked a fish in wet paper 
Jamaican Party	Had a Limbo contest in her Six	Made steel drums from tops of bins	Had a beach party
Hammocks and Hideouts	Made time to read on camp 	Went bird watching 	Made a secret shelter with my Six
Island People	Did a culture survey in school	Learned about another culture in my school	Linked up with a Cub on the JOTI
Sea Language	Made a camp slang for a weekend	Learned some morse code signals	Learned my name in Semaphore
